

FOOTBALL HOCKEY LEAGUE IS RE-ORGANIZED FOR THIS YEAR—FRANK WAGHE OF MACLEOD IS PRESIDENT—STAVELY MAY JOIN

At a meeting held in Carleton Place, Ontario, last week and attended by delegates from Macleod, Grimsby, Carleton Place, and other teams, the Football Hockeys League was re-organized for this year. It was decided to meet on Tuesday evening at 7:30 p.m. The league will be formally applied to be included. The secretary was instructed to write to the league, Stavelly, Fisher Creek and Leithbridge to find out their plans. Officers for the 1927-28 season were elected as follows:

President, Frank W. Macleod, secretary, R. L. King, Carleton Place, executive, Carleton Place, Ray Marshall, Grimsby, D. Boyle, Macleod, W. H. Davis, team entered will have a member.

THE LIFE-STREAM IN PLANTS

A writer in The Fortnightly Review supplies an extremely interesting sketch of the remarkable recovery of the secret life of plants made by Sir Jagdish Bose of Calcutta.

The patient researcher has followed over a period of 30 years the life of plants and has established the truth of his theory of life in plants and trees.

The mystery of plant life has hitherto baffled the understanding of the human mind.

With the rapid brain power in Canada, the mystery of British capital recovery of the secret life of plants made by Sir Jagdish Bose of Calcutta.

because our senses are too dull to perceive the delicate interplay of forces which regulate the life of plants.

"But," says Bose, "the imperfection of his senses man builds a raft of thought to make daring attempts in the great sea of the unknown."

To overcome the limitations of the organs of perception, Bose devised a super-sensitive apparatus, by means of which it has been demonstrated that plants have nervous systems, hearts and pulsations, that some are ten times as sensitive as human beings, that they struggle in adversity, die with visible regret, if cut off in the prime of life, or placidly face the end of their natural span.

At one of his lectures Bose used as an example of his experiments a tiny leaf of plant was put into the jaws of the instrument. A tiny beam of light was directed and projected from a mirror to the distant scale. The light, swinging alternately from left to right, indicated the pulse beats. Silent as reigned the hearts of the audience.

"You are watching the heart beats of this plant. It is sluggish," a stimulant was put into the bowl in which the cut flower rested. In a few moments the pulse tickered and the dying plant came back to full life.

"Now we will kill it," said Bose. The audience held their breath. The pulse stopped.

"You are watching the heart beats of this plant. It is sluggish," a stimulant was put into the bowl in which the cut flower rested. In a few moments the pulse tickered and the dying plant came back to full life.

"Now we will kill it," said Bose. The audience held their breath. The pulse stopped.

Canada, United States has more than three billions and is increasing her interest more rapidly than Great Britain.

Prejudice in Britain against investments in Canada has not been justified, and frequently losses have been directly traceable to "remote control" of enterprises from London.

To overcome the limitations of the organs of perception, Bose devised a super-sensitive apparatus, by means of which it has been demonstrated that plants have nervous systems, hearts and pulsations, that some are ten times as sensitive as human beings, that they struggle in adversity, die with visible regret, if cut off in the prime of life, or placidly face the end of their natural span.

## CAPITAL GOSSIP AND PROVINCIAL NEWS

### Premier and Ministers Attend Ottawa Conference

Alberta will be represented at the interprovincial conference which opens in Ottawa next Thursday by Premier Brownlee, Hon. George Headley, minister of agriculture and health, Hon. E. G. Reid, provincial treasurer and minister of municipal affairs, J. C. Thompson, provincial auditor, and R. G. English of the department of municipal affairs.

Among the questions which will come up for consideration at the Ottawa meeting are the revision of federal subsidies to the provinces, a reconsideration of the fields of taxation as between the dominion and the provinces, the problem of railway development in the Peace River district, the renewal of federal aid in highway construction, the division of police administration in the province and a survey of transportation, marketing and storage problems. It is expected that with the wide variety of opinion which will be presented by these in attendance from all parts of the dominion, a solution for many of these important problems may be reached.

**Edmonton Again to Have Normal School**  
A new normal school, the third provincial teacher-training institution in the province, is to be established in Edmonton in time for the opening of the 1928-29 term, announced Hon. Percival Baker, minister of education. Vacant rooms in some of the city schools will be utilized for the first year, pending the erection of a permanent building for this purpose.

### High River Air Station Closes for Winter

The High River Air station will be abandoned for the winter and the planes which have been in operation there will be transferred to other points in the Dominion. Capt. R.

Collis, officer commanding the station, is being moved to Ottawa for the winter months and the other officers will be stationed at Winnipeg. New planes are expected for the High River station next spring, and these will be employed as formerly on forest patrol service.

### Wheat Pool Annual Meeting November 23

The annual meeting of Alberta Wheat Pool delegates from all sections of the province will be held in Calgary on Wednesday, November 23. An invitation has been sent to pool growers in British Columbia to be represented at this gathering in view of the increasing numbers of farmers in the coast province who have allied themselves with the pool. Any resolutions from local associations dealing with the bylaws of the pool which a delegate wishes to bring before the meeting must reach the pool headquarters in Calgary not later than November 5.

### Active Lumbering Season Expected in North

Sawmills along the E. D. and R. C. railway in Northern Alberta are expected to turn out approximately 30,000,000 feet of lumber during the coming winter, it is estimated by Edmonton dealers. In addition, other mills in the section of the province north of Red Deer will cut over 100,000,000 feet. Operations, it is expected, will commence early in November and this work will provide work for some 3,000 men and from 750 to 1,000 teams.

**Flourishing in Brazeau Valley**  
The last herds of wild elk in the province which have found sanctuary in the valley of the Big Brazeau river, after being practically exterminated in other parts of Alberta, are now rapidly increasing and spreading northward, according to reports from that district. Several large bands have been seen, and the animals appear to be doing well in their new home, which is considerably farther north than their usual

## Alberta Man Judge at International Fox Show

Olaf E. Larsen of Blackfalds, Alberta, and R. G. Gordon of Victoria, B. C., placed the awards at the International Fox and Fur Exhibition held during the past week in the Victoria. This event, which was held under the auspices of the Vancouver Island Silver Fox Breeders' Association, attracted entries of live animals and pelts from many sections of Canada and the United States.

### Salt Well Being Drilled at McMuray

The test salt well being drilled at McMuray under the direction of the provincial department of railways has reached a depth of over 200 feet, according to the report of the engineers in charge of the project. It is estimated that a depth of about 600 feet is necessary before salt will be struck in any quantity and it is the intention to proceed with drilling until the salt vein is reached.

## POPPY DAY

The eleventh day of November brings round the anniversary of the signing of the Armistice, bringing to an end the four years of slaughter and agony which drenched the world in blood and tears.

We call this day the "Day of Remembrance," and dedicate our thoughts to many thousands of the flower of our youth and manhood who have given their lives as a sacrifice on the altar of a threatened civilization, and to the building of a better and more tolerant world.

We have come to regard the poppy as the symbol of remembrance for this day, because its bloom was the marking place of many thousands of gallant dead sleeping beneath; and it alone would seem could stay with the "dead" amid all the desolation and give a promise of life.

And now our outward token of "remembrance" on this day is a replica of the Flanders poppy; and in wearing it we pay our humble tribute to those who sleep over there; and what persons would be their greatest wish, could they speak, we help the broken and disabled living who were their comrades.

These tokens are made by those of our disabled who, through their service and wounds, are unfitted to take their place in the competitive labor market, and in addition afford a pleasant and helpful form of sheltered employment.

The national campaign is carried on under the direction of the Canadian Legion of the British Empire Service League. The proceeds of the street sales are used for the relief of temporarily distressed ex-service men and their families.

By wearing a poppy on Armistice Day we thus serve a double purpose, remembrance of the dead and help for the broken living.

## Quantity Buying

When it begins to move in market and farmers will presently be in a position to purchase their winter supplies in quantities for cash. It is a creditable action, an action there is no need to feel just a little bit bulky about, and it is good business, too, to give your local merchant this business if he can meet you in quality and price. He certainly can meet you in service. Give him an opportunity to figure on your requirements. Let him see that you appreciate his carrying your account during the summer. If you do this in buying at home you will feel better about it.

## THE WHITE HALL

### LOCAL AND PERSONAL NEWS

F. Cutler motored to Lethbridge on Tuesday last.

George Bailey of Lethbridge motored over Macleod on Wednesday of this week.

Frank Adams, well known musician, was a visitor here on Friday and Saturday last.

"Today's" Buckle of Calgary was a visitor in Macleod last week. While here he was the guest of F. Tatham.

Mrs. F. Harvey, wife of Capt. Harvey, V. C., was in Macleod visiting her father, Mr. Robt. Patterson, at the Betty River Ranch.

The local Elks are planning for a big venison feed in the near future. Last year they all enjoyed a duck and chicken repast and convivial evening.

On Saturday evening October 29th the junior W. A. of Christ Church held a pretty Halloween party in the Parish Hall. Arriving in Halloween spirit as well as masquerade costumes, some being most elaborate, the members of the W. A. and their little friends began to arrive at the Hall about 7 p.m. and at 8 p.m. the grand march started to give the judges a chance to choose for the prize winners. First prize winner was Elsie Taylor (Indian Woman); Jean Hilliard next as (Prato); Kathleen Sparling was beautiful as (Night); Little Betty Welch as Miss Canada; Little Arthur as Bismarck; Bern Parker as the best dressed Boy. Then came the Comic Group Galloway as Clown and Little Nellie Taylor as Tom Thumb. The party ended about 10:30 p.m. and everybody young and old enjoyed the fun. Great credit is due their leaders who spared nothing to

give the kiddies a good time. Mrs. C. H. Gilroy and Miss Bloomer were the ladies responsible for the party.

The Rev. Canon Middleton of Carleton, formerly of Macleod, has been appointed rural dean for the Lethbridge district, which includes Macleod parish.

Mrs. S. Neilson of Maple Lake, Rebekah Lodge No. 23, Edmonton, and Vice President of The Rebekah Assembly of Alberta, while visiting Macleod Rebekah Lodge No. 24, was the guest of Mrs. George Parker.

S. Hoag was a business visitor to Macleod on Tuesday of this week. He is Executive of the Lethbridge Branch of the National Automobile Club. He is a native of Philadelphia and other southern points.

A jolly Halloween Party was enjoyed by the United Church Primary Sunday School children last Friday afternoon. The room and tables were appropriately decorated in the Halloween colors and judging from the faces and sounds every one had a merry time.

A meeting of the Footbills Hockey Executive will be held in Macleod on Monday, Dec. 5th, 1927, when the schedule for the ensuing season's games will be drawn up. The meeting will be presided over by President F. P. Walsh and F. Church, chairman of the convention, for Mr. Davis will represent Macleod. It is hoped that the following town

## BABY'S OWN SOAP

Famed for its fragrant creamy lather  
Best for You and Baby too

will be included—Lethbridge, Macleod, Pincher, Granum, Claresholm and Staveland.

The greatest Halloween party ever held in Macleod was that in the United Church Sunday School room on Friday evening, when Mr. F. P. Walsh, of the Primary Department gave the annual party to the boys, girls, and there were many. After games outside they sat down to a very tempting supper, such as the little folk like, and where they did justice to the goodies before them. After supper they sang their songs, as they marched around, and admired the Halloween pictures decorating the walls.

Miss Edith Sinclair of Toronto, secretary of young people's work for the province of Ontario for connected with the Presbyterian Church in Canada, is spending three weeks in Alberta addressing meetings at various centres. She will address two meetings—one in the afternoon at 4 o'clock at the Manse for the C. G. T. and the W. W. S. and the other an open meeting in St. Andrew's Church at 8 o'clock, when she will give an address on young people's work in general. She is a very interesting speaker and has an important message. All young people and others interested in young people's work are cordially invited.

J. D. Matheson, was the speaker at the Brotherhood, in the United Church, on Tuesday evening, taking for his subject "The Witness Convention," this said the speaker was the greatest convention ever held in the West. It brought together all the Provinces, and more particularly the men from the East, many of whom had never before seen the West. Attention was given to the program was well arranged and carried out, and the election was something we as Canadians are proud of, especially so Westerners as the Leader elected is a Western man. Hon. R. H. Bennett, is one of Canada's sons, and one of Alberta's citizens, as Alberta is honored, General McRae, who organized the Convention, proved himself the right man. The only resolution that I will mention was the one pertaining to Natural Resources, where the School Question was mentioned. It was that when the Natural Resources were given to the Provinces, that the School lands or the money from these lands should be divided, on an educational basis, this Convention agreed to. The Convention brought out the best men of the in Conservation, and many eloquent speakers were heard, and when the election of the Leader was over, Hon. R. H. Bennett, who is a prominent official, and supporter of the United Church, thanked the convention, for the honor, he was able to make himself heard all over the great

arena, and promised to do his duty as a Canadian.

Mr. Curran Grier was a business visitor to Calgary this week.

George McFarquhar returned this week after a month's absence at Pacific Coast points.

Colonel Smith, of the C.I.O., London, England, was the guest of Mr. and Mrs. J. Smith of Macleod.

B. J. Grier has purchased a new Paige Car which represents the last word in style and comfort, not to mention luxury.

Mrs. Grayson, who has been visiting her mother, Mrs. E. Rasmussen, returned to her home in Winnipeg on Monday last.

Word has been received here of the death of Mr. St. George in the United States. The deceased had been ill for some months past, was well known in Macleod and resided here for many years. He was born at Hazelton, 9 miles south of Macleod, and for several years worked for the Imperial Oil company here. He was a prominent member of the Oddfellows Lodge in Macleod and is survived by his wife and small son, both of whom are still residing here. Mrs. St. George came to reside in Macleod from Lethbridge when her husband was ordered to a sanatorium on account of failing health. The late Mr. St. George was in his thirtieth year and was a son of Mr. and Mrs. Clem St. George, formerly of Hazelton, Macleod.

GENERAL MERCHANTS—DRY GOODS, LADIES' AND MEN'S UNDERWEAR, BOOTS AND SHOES, GROCERIES, VEGETABLES AND FRUITS.

The first of November is here and Xmas and New Years greetings will remind us of the past. The present will engage our attention. In making a list of the presents and remembrance to our families, friends and acquaintances. It is a beautiful custom to remind us that in whatever part of the globe we are we are not forgotten. It does not matter what the value of a gift is, it is the spirit in which it is given. Let us all, however small our pocketbook, commence today and put down in our memo book the presents we intend to make. We will help you in your selection of the gifts to buy.

A gift of Fancy Handkerchiefs is always acceptable—our stock is the largest ever. Hand embroidered Swiss work. You need not be ashamed to give one for a gift. They are done up in fancy cotton boxes. Then don't forget our full fashioned hose. Hosiery manufacturer. What lady will refuse one of these works of art. One lady said she had worn a pair for a year. Now if you make a gift of a pair you will be kept in remembrance all that length of time. Boots and Shoes are always acceptable. Silk and Wool Hosiery will never be refused. What we are proud of is our selection of Men's Ties. The remarks are just to remind you to look around and be prepared.

## Better the Man with His Eye to the Sky than the Man with His Ear to the Ground

ALL through its long, successful history, General Motors of Canada has had its eye to the horizon.

Listening not for what followed, but looking always towards the thing ahead.

And General Motors has seen many of its visions realized.

It has seen a great industry grow up in Canada to supply the Canadian family with a means of transportation to meet its needs and resources, to answer the desire for style, dependability, luxury.

It has seen, in the Canadian Fisher Body plants, the perpetuation of Canadian ideals of craftsmanship.

It has seen, in the General Motors Research laboratories, the development of countless advances and refinements on which much of modern motorcar comfort depends.

It has seen, on the General Motors Proving Grounds, the proof of principles which are now accepted factors in automobile design and construction.

It has seen the triumph of co-operative purchasing and manufacturing methods with their resultant economies to be shared with the buyers of General Motors cars.

And the eyes of General Motors are still to the horizon, still seeking new ways to improve General Motors cars and place the cars within reach of ever-widening circles of Canadian buyers.
